ABOUT ME

An Information Technology student with strong interest in software development, creative media, and student leadership. Experienced in managing and coordinating student-led organisations, with a focus on communication, teamwork, and initiative. Actively involved in leadership roles and independent projects that strengthen organisational and technical skills. Seeking opportunities in youth exchange programmes and professional development to gain global exposure and contribute meaningfully to community and technological growth.

EXPERIENCE

Computer Science Association - President (2025 - Present)

- Lead a student organisation by planning, coordinating, and executing academic and community-based programmes
- Manage committee members and ensure effective collaboration across all departments
- Conduct meetings and support decision-making processes for organisational activities
- Represent the association in official engagements and inter-organisational collaborations

Margamas Gamelan Club - Technical Executive Committee Member (2025 - Present)

- Manage technical operations for club events including sound, setup, and digital requirements
- Support successful execution of 10+ events involving large student participation
- Collaborate with committee members to ensure smooth event planning and delivery
- Assist in documentation, media coordination, and post-event reporting
